

LIBERAL LIZ FERRY'S WOKE AGENDA

In June of 2020, when Black Lives Matter (BLM) rioters burned, looted, and vandalized downtown Philadelphia in the name of so-called 'social justice,' I was the first elected-official in the country to stand up for law enforcement and call out BLM for what it is: a radical, left-wing hate group that perpetrates urban domestic terrorism in our communities.

In response, the Democrat Party and their allies made every attempt to cancel me. Progressive politicians in the state legislature pushed for impeachment and BLM protesters surrounded my home on multiple occasions.

When most people would have resigned or taken a knee in submission, I refused to back down or apologize for speaking the truth. Thanks to the support and prayers of countless Americans who heard about this injustice, I was able to stand firm in the face of insults, harassment, and death threats.

More concerning than the vile hostility from the woke mob, was the many elected Republicans who either sat by in silence or, worse, chose to unite with Democrats and jump on board the 'Destroy Joe Gale' bandwagon.

One of those backstabbing Republicans was Upper Dublin Township Commissioner Liz Ferry. Rather than defend my stance for honesty, accountability, and law-and-order, Liberal Liz Ferry voted with Democrats to issue a formal resolution that not only condemned me, but declared that there is an "innate racial prejudice in each and every person."¹

That's right, Liz Ferry believes that you and your family were born racist. It is scary that a supposed Republican would use her position of authority to spew poisonous CRT-style indoctrination upon the good people of Montgomery County.

Despite supporting the progressive policies and propaganda embraced by far-left Democrats, Liberal Liz Ferry is running for Montgomery County Commissioner with the official endorsement of the Montgomery County Republican Committee (MCRC). Sadly, this is not the first time the Montgomery County GOP has endorsed a candidate for County Commissioner whose warped sense of morality was fundamentally incompatible with the traditional, family values of the Republican Party's conservative base.

Back in 2015, MCRC endorsed a candidate for County Commissioner who served as a board member of Planned Parenthood. Outraged that the GOP would put their name and resources behind a man who was part of the nation's largest abortion mill, I ran unendorsed for County Commissioner on a pro-life platform. By the grace of God and thousands of loyal supporters who felt betrayed to the core, I was elected Montgomery County Commissioner.

This year, I once again must defend our Republican principles from internal sabotage by a RINO candidate backed by the GOP establishment and their power-hungry party bosses.

We cannot allow Liberal Liz Ferry to attain a seat on the Montgomery County Board of Commissioners. I humbly ask for your support in my campaign for re-election as your Republican County Commissioner.

God Bless,

Joe Gale
Montgomery County Commissioner
